Dear Mr. Snow.

The Nature Conservancy would like to express our support for the 1999 CALFED proposal being submitted by Glenn County Public Works entitled "Habitat Restoration/Floodway Enhancement: Wilson Landing to Big Chico Creek on the Sacramento River." This proposal is an example of the sub-reach scale site-specific planning envisioned within the SB 1086 "Sacramento River Conservation Area Handbook." In addition, it addresses CALFED's focused action for Sacramento River to "continue studies and demonstration projects which address potential changes in hydrology and geomorphology, local economic impacts, and other issues associated with ongoing riparian protection and restoration work."

The Nature Conservancy and Glenn County have agreed to work collaboratively on our planning efforts, and will initiate this process within the Chico Landing sub-reach, as part of the CALFED 97-NO2 contract. These efforts compliment Glenn County's proposed project.

We support Glenn County in taking an active role to identify flood management solutions that are consistent both with CALFED's Stage I Action for the Sacramento River and with the goals and objectives of the SB 1086 Riparian Habitat Program.

We look forward to actively supporting and participating in this project and working toward our mutual goals of a healthy Sacramento River ecosystem.

Sincerely,

Sam Lawson

Denny Bungarz, Chair
Glenn County Board of Supervisors
P. O. Box 391
Willows, CA 95988

Dear Supervisor Bungarz,

Thank you for agreeing to meet with me today regarding The Nature Conservancy's (TNC) 1999 CALFED proposal "Floodplain Acquisition and Sub-Reach/Site-Specific Management (Sacramento River - Red Bluff to Colusa)".

TNC has been active in land acquisition and riparian restoration along the Sacramento River since 1989. We share the SB 1086 Conservation Area goals of re-establishing a continuous riparian corridor and limited river meander. We work only with willing sellers, and we work cooperatively with landowners, stake-holder organizations, local government, and public agencies.

I wanted to provide you with some additional information regarding our 1999 proposal, including a summary and maps to provide a description and locations for project activities. We recognize that TNC's acquisition and restoration plans often impact county planning for roads, flood control, open space, etc., and that cooperative planning helps both TNC and the county.

The enclosed Executive Summary is a two-page overview of the project and is a component of the CALFED proposal TNC will submit next week. As you will note, we are still refining some of our budget numbers. The maps show individual parcel locations in Glenn County (Figures 3 & 4) and the sub-reach of the river where we propose site-specific management (Figure 3 - Beehive Bend Sub-Reach, Glenn County, RM 165-176).

I have also met with Glen County's Public Works Director Tom Tinsley to discuss site-specific management proposal for Beehive Bend, and to coordinate the site specific management planning we are initiating on the Chico Landing Sub-Reach (Figure 4) as a part of our current contract with CALFED (97-N02). Tom and I agreed TNC's work on the Chico Landing sub-reach compliments the 1999 Glenn County CALFED proposal "Habitat Restoration/Floodway Enhancement: Wilson Landing to Big Chico Creek on the Sacramento River," and that Glenn County and TNC's efforts will benefit from close cooperation and coordination.

I look forward to our collaboration on site-specific planning and management. Please feel free to contact Sam Lawson or me, if you have questions, comments or suggestion regarding the proposal or our ongoing activities. I look forward to meeting with you, and hopefully taking you out to see the results of our work in Glenn County.

Sincerely,
